

Mr. Vukic
Secretary
European Association of Neurosurgical Societies (WFNS)

Subject: Letter of Support for Dr. Kee Park – Candidate for WFNS President Elect (2025–2027)

Dear Mr. Vukic,

We are writing to express our firm and enthusiastic support for Dr. Kee Park's candidacy for President Elect of the World Federation of Neurosurgical Societies (WFNS) for the term 2025–2027, to be decided at the upcoming WFNS meeting in Dubai.

As delegates to the WFNS on behalf of the Swiss Society of Neurosurgery (SGNC), we have had the privilege of knowing and working with Dr. Park for many years through various global neurosurgery initiatives. His unwavering commitment to advancing equitable neurosurgical care worldwide, particularly in low-resource settings, has been an inspiration to many within our community.

Dr. Park brings to this candidacy not only remarkable leadership experience and academic excellence but also a profound sense of mission. His tireless work in education, capacity building, and advocacy for global health aligns seamlessly with the values and vision of the WFNS. His collaborative spirit, strategic insight, and integrity make him exceptionally well-suited to lead the federation in these pivotal times.

We believe that Dr. Park embodies the kind of forward-looking, inclusive, and dedicated leadership that the WFNS needs. It is therefore with great confidence and respect that we support his candidacy.

Yours sincerely,

Prof. Philippe Schucht
President, Educational Committee, SGNC
WFNS Delegate – Switzerland

Prof. Oliver Bozinov
President, SGNC
WFNS Delegate – Switzerland
