To:

Dr. Miroslav Vukic

Secretary, World Federation of Neurosurgical Societies (WFNS)

Subject: Letter of Support for Dr. Kee B. Park

Dear Dr. Vukic,

As President of the Brazilian Academy of Neurosurgery, I am writing to express my full support for Dr. Kee B. Park as a candidate for President-Elect of the WFNS for the 2025–2027 term.

Dr. Park is a dedicated neurosurgeon with a strong commitment to improving access to neurosurgical care worldwide. His work in global neurosurgery has inspired many of us who believe that high-quality neurosurgical care should be available to all, regardless of geography or resources.

His leadership in international initiatives, collaboration with local teams in underserved regions, and academic role at Harvard Medical School show his ability to combine clinical excellence with a vision for global impact.

I fully support Dr. Park's candidacy because I believe he would bring inclusive, thoughtful, and effective leadership to the WFNS.

Sincerely,

Sincerely,

Robson Luis Oliveira de Amorim, MD, PhD.

President, Brazilian Academy of Neurosurgery (ABNc)
